Season 2 Project and Guild Funding

Active

... Share

Author: Above Average Joe#5427, frogmonke#6855

SUMMARY

Per the **Season 2 specification**, Guild and Project were each approved for 5 Million BANK and the Grants Committee was allocated 10.5M BANK, with 3.5M set aside for contributor rewards.

This proposal seeks to ratify *where* these budgeted allocations will go (between guilds and projects), and seeks approval for a modification based on interpretation of the Season 2 Spec.

OVERVIEW

 Edit

Bankless DAO is a decentralized community to coordinate and propagate bankless media, culture, and education. It's goal is to drive adoption and awareness of truly bankless money systems like Ethereum, DeFi, and Bitcoin. It achieves this goal through the collective participation of its community.

Bounty Board Information

Thank you for checking out bounties!

This bot can be used to create, publish, claim, submit, complete, and delete bounties. The workflow for a bounty follows from a draft, to published, in progress, in review, and complete.

-> /bounty create

Draft a bounty for publication. This is the first step in the bounty creation process. Using this command in the channel #spammy-stuff will create a draft of the bounty and send it to your DM for confirmation.

-> /bounty publish 👍

Publish a bounty on the board. Using the same emoji or slash command, finalize the drafted bounty. Once finalized, the bounty is posted onto the official #👉-bounty-board and the website. The bounty is viewable publicly and can be claimed (started) by anyone.

-> /bounty claim |

Start working on a bounty. This command will assign a bounty to your discord handle. The bot will notify the bounty creator that you have started working on this.

-> /bounty submit 📄

Submit work for the bounty. Use this command to notify the creator that the work is complete and ready for review.

-> /bounty complete ✅

Mark bounty complete and distribute funds. Final step of the bounty flow. The bot will notify the claimer that the bounty is complete and review is finished. Please consider tipping the claimer for their work.

-> /bounty list

View up to 10 bounties that can either be opened, claimed by you, created by you and more.

-> /bounty delete ❌

Mark a bounty for deletion. Only drafted bounties or published bounties can be

What is a wallet?

Typically, we associate wallets with money storage. In crypto sphere a "wallet" is a metaphor, for technology that functions as a lock box, holding your access to the [blockchain](#).

A simple definition of a wallet is an application or device used to interact with a blockchain.

When a wallet interacts with a blockchain, one can make purchases, transfer assets, interact with applications, and more!
